

July 11, 2016 -----PE/Athletics Subcommittee

In attendance: David Johnson Jr., Krista Chase, David Johnson, David Hammond, Blair Kopp, Matt Cook, Jack Rioux, Geoff Godo, Pam Leduc, Lyndon Keck

Lyndon updated committee on where PDT was with project. We look at prints of Mt. Blue, Cony and Windham PE/Gym facilities and briefly discussed. Cony is still considered amongst the committee as a great example of what we want.

We went over the outdoor storage space list and tried to narrow down what we need to build new and what we might not need at the new facility. This list was being brought to Scott Brown and the DOE for discussion. Concession/bathroom facility remains a high priority since it's an essential supporting function of our athletic facilities.

A member of the public has raised a concern about the loss of track during construction according to Lyndon and PDT is looking at alternatives to the placement of fields to remedy the situation if the committee so chooses to do so. We discussed how we as a subcommittee made field placements last November based on what we thought worked for the educational aspects, athletics and the overall connection to the new school.

Next meeting: August 8, 2016 @ 5:00PM
