**Lyndon also helped us to go over our master list of needs and categorize what the state will pay for and what they won't. This was very helpful and very satisfying to know our list of things that we will either need to ask the taxpayers for or fundraise for has was much smaller than expected!**

**Lyndon also mentioned he would be meeting with Scott Brown the next day where PE and Athletics would be on the agenda for discussion. David Jr gave him a list of the current outdoor storage buildings to bring with him to discuss what the state may help with.**

**Next meeting hopefully we will have some more update concepts from PDT to discuss as well as continue talking about our needs list and how non state funded things will be paid for ie fundraising, public tax dollars.**

**Next meeting: July 11, 2016 @ 5:00PM**
