

May 17 2016 -----PE/Athletics Subcommittee

In attendance: David Johnson Jr., David Johnson, David Hammond, John Hodge, Jack Rioux, Geoff Godo

Went over Synthetic Turf presentation to the building committee. Matt and Krista did an amazing job and the building committee unanimously voted to endorse the inclusion of turf in the high school project.

Need to discuss fundraising with fundraising committee once that has been formed and they meet.

Discussed the importance of making a list of non state funded things we need at fields so we make sure everything is included in design and so we know what we need to ask for fundraising for.

Went over new concept designs and started discussing parking in relation to fields, gym, locker rooms etc.

Next meeting TBD once we have contacted Lyndon to see his availability for the month of June.
