

# Technology and Learning Commons Subcommittee

## Meeting Notes

Meeting: January 13, 2016

Present: Dan Chuhta, Ryan Palmer, Nick Riggie, Matt Drewette-Card, Jim Byrne, Jim Moulton, Sherry Wyman, Jodie Crawford, Jane Scease

Homework: Develop a top 10 list principles or attributes we want to see in OUR Learning Commons.

- Each member had 10 sticky-notes and listed one principle or attribute on each.
- Each member placed their stickies on to white board and tried to group them.
- Jim B. & Jim M. then grouped all and created titles or labels for each group.

Discussion ensued....

### [Attributes and Principles](#)

*(Follow link to see attributes that contribute to each item below.)*

- Mission: That it serves the mission of the district (doesn't get lost in attention to details)
- Variety of Spaces with Functional Flexibility
- Curriculum connected (visibly explicit)
- Strategically Sited within Building
- Technology
- Natural Light/Aesthetics/Shape/Design
- Excellent Acoustics in/out
- Bathrooms within LC
- Celebrates the Community in a variety of ways
- Integrated Storage and Office Space for LC staff and equipment

Ryan will have student advisory committee members do this activity when he meets with them in the near future and will add the student input to our notes.

Homework: Review these principles and attributes within the next week and make comments so we can finalize prior to Building Committee Meeting on March 2nd.

We will be on hiatus until the Architects and or the Building Committee needs more input from this subcommittee.
