

Technology and Learning Commons Subcommittee

Meeting Minutes

August 29, 2017

6 pm - MSAD75 District Offices

1. Jodi explained that the wish list for Technology in the new High School was 300,000+ over budget from what the State had allotted

2. Kathy Kahill and Joel Nygren worked together to pare the budget down and pull out items that could be added in post construction, and items that could be not highest price but next tier down.

They also looked for items that were not related to teaching and learning.

3. The subcommittee then went through the list item by item and discussed.

Kathy said signage could be added later. Speakers in the locker room could be wireless bluetooth portable. The Learning Commons budget could cover some items post construction. Pull down screens will come from another budget area.

4. The Subcommittee thanked Kathy and Joel and approved the cuts.

5. All felt it would be a great idea to invite administrators to the meeting to give them and update on the subcommittee's work. Jodi said she would invite Donna, Brad, Dan, and Mark to the next subcommittee meeting in September. An Invite to all would be sent at that point. Date TBD.
